Client's Challenges	<ul style="list-style-type: none"> Editorial and publishing team was needed to compose and publish more than 500 research papers during the conference. 		
Project Completed	<p>The scope of work included</p> <ul style="list-style-type: none"> Gathering all information about all the research papers. Composing, reviewing, and formatting the research papers according to the set template. Coordinating with the authors of the research papers for any missing information. Submitting research papers to the panel of experts for their approval and changes. 		
Project Duration	Three months	Project Location	<ul style="list-style-type: none"> Pune
Tool	<ul style="list-style-type: none"> MS Word Paint Google 		
Solution Offered	<ul style="list-style-type: none"> Technowrites offered a team of 10 writers and three reviewers. Technowrites team members coordinated with the authors of the research papers who were dispersed globally through telephonic conversations, emails, and chats to get information. 		
Highlights	<ul style="list-style-type: none"> A total of 570 research papers were published and presented for the conference. Three types of indexes were generated for all the research papers author, subject and title index. An abstract handbook for all the papers were prepared which included the name of the paper, abstract of the paper, names of authors, and the keywords. All the research papers were given in a pendrive and they were hyperlinked.
